PROFESSIONAL SUMMARY

Aspiring Machine Learning Engineer pursuing B.Tech in Artificial Intelligence and Data Science. with experience in EDA, predictive modeling, and. cloud-based ML tools: Completed a-virtual internship at Tata IQ and certifications in MongoDB & Big Data Analytics in no-code (Azure ML) development, Spassiontor real-world problem-solving using AI.

EDUCATION

B.Tech – Artificial Intelligence and Data Science

May 2025 — June 2025

EXPERIENCE

Virtual Intern – Tata IQ

May 2025 — June 2025

- Performed exploratory data analysis on large-scale financial datasets
- Supported development of a delinquency risk prediction model
- Tools used: Python, pandas, seaborn, matplotlib, Azure ML Studio
- Concepts: Supervised & Unsupervised Learning, EDA, Predictive Modeling, Model Evaluation

CERTIFICATIONS

- **MongoDB** (Alison)
- **Data Analytics – Mining and Analysis of-Big Data** (Alison)

SKILLS

- **Languages:**
Python, JavaScript, SQL
- **Libraries:**
pandas, NumPy, matplotlib, seaborn, scikit-learn
- **Tools:**
Google Colab, Jupyter Notebook, Git, Azure ML Studio
- **Concepts:**
Supervised & Unsupervised Learning, EDA, Predictive Modeling, Model Evaluation
- Visualized using PCA and cluster heatmaps

PROJECTS

- **Loan Default Risk Prediction (Tata IQ)**
 - Classification model for identifying high-risk customers using logistic regression
 - Visualized results and visual dashboard for stakeholder
- **Student Performance Predictor**
 - Applying linear regression to analyze academic scores
- **Customer Segmentation with K-Means**
 - Implemented unsupervised
