

# J.BERLIN IMMANUEL SANTHOSH

## AIML ENGINEER

Email:j.berlin.santhosh@gmail.com Portfolio:berlinimimportfolio.vercel.app LinkedIn:www.linkedin.com/in/berlin-imman

### SUMMARY

Pre-final year B.Tech student in Artificial Intelligence and Data Science at Anand Institute of Higher Technology, Chennai (CGPA: 8.83), graduating May 2027. Hands-on experience in Python, JavaScript, R, machine learning, feature engineering, and data analysis. Built and deployed AI-driven chatbots including multilingual learning organizer (Groq + React + OCR) and healthcare assistant (94% disease prediction accuracy).

### EXPERIENCE

#### Tata Consultancy Services

##### Virtual Intern

June 2025

- Built interactive executive dashboards in Power BI and Excel during a business simulation, transforming raw datasets into clear visualizations that enabled faster identification of key trends and actionable insights.
- Reduced manual data analysis and reporting time by ~40%, allowing simulated leadership teams to review performance metrics more efficiently.
- Framed 10+ data-backed strategic questions for executive discussions and delivered visual reports that improved decision-making speed and clarity in the exercise.

#### GENZ EDUCATE WING (MSME-APPROVED)

##### Machine Learning Virtual Intern

August 2025

- Developed and deployed end-to-end Machine Learning pipelines in Python, building classification and regression models using scikit-learn and pandas on real-world datasets (customer churn and sales forecasting).
- Performed data preprocessing, feature engineering, model training, and evaluation using metrics such as accuracy, precision, recall, and RMSE, improving model performance by 18% after hyperparameter tuning.
- Recognized for analytical depth, proactive experimentation and consistent contribution to model optimization and problem-solving throughout the internship.

### CERTIFICATIONS

- Deploying SAP on Google Cloud – Google Cloud (2025)
- Gemini for Application Developers – Google Cloud (2025)
- Introduction to Responsible AI – Google Cloud (2025)
- Database Management System – MongoDB (2025)
- Fundamentals of Machine Learning and Artificial Intelligence – AWS (2025)
- Foundations of Prompt Engineering – AWS (2025)
- Data Analytics with Machine Learning – Deloitte (2026)

### PROJECT

#### Nexus Student Assistant

- Built intelligent student-assist chatbot that generates structured notes, personalized study schedules, and quizzes from a single prompt. • Implemented OCR and Google Translate to scan/process PDFs & images, supporting 15+ languages with 98% text recognition accuracy.
- Integrated Groq for fast AI inference and developed responsive UI using React and JavaScript, achieving ~30% faster response time and 95% user satisfaction in testing.

#### Health Guardian

- Developed Machine Learning/Deep Learning models for disease prediction using symptom data, achieving 94% accuracy on test datasets.
- Built an OCR system to extract medication names, dosage and frequency from prescriptions with 91% text recognition accuracy.
- Designed and deployed an integrated AI healthcare chatbot platform combining disease prediction, prescription scanning, and real-time medical guidance.

### TECHNICAL SKILLS

- Python - Machine Learning, Data Science
- Structured Query Language (SQL)
- Data Visualization : Matplotlib, Seaborn, PowerBI, Tableau
- MongoDB
- Azure Machine Learning
- Data Structures and Algorithms
- TensorFlow, PyTorch

### EDUCATION

ANAND INSTITUTE OF HIGHER TECHNOLOGY

CGPA : 8.83 / 10

B.Tech.Artificial Intelligence And Data Science
